

# Washington State Low-income Weatherization Program

## Income Eligibility Guidelines

The gross income received by all members of the household must be at or below 125 percent of the poverty level. Columns A and B show that maximum income allowed at 125 percent of the poverty guidelines. Income limits are determined by multiplying the current Poverty Guidelines by 125 percent.

Columns C & D show maximum monthly and annual income for households with income that is 100% from wages.

Further income documentation testing must be done to determine actual eligibility.
